Greetings Jerrod,

Great Job! We really appreciate the help with this one. I assume you threw the xds back down the hole?
I look forward to buying you a beer sometime in the not too distant future.

Best regards,
r^3

Subject: Pavillion MW02 visit and download

Hi Randall-

I was able to get out to MW02 yesterday. All looked OK. WL = 644.72' b1 TOC

I've attached the downloaded data from both the Barologger and the LevelTroll, and I have a copy in case for some reason they do not come through. Have a good one.

Jerrod
